P.O. Box 315  
Liberty, MO 64069

Dear Bob:

Thank you and all the club members for the use of the 146.79 MHz repeater to send messages to the Tau Beta Pi National Convention in Manhattan. The two cross-band repeaters worked very well on Thursday when we really needed them. Keeping the conference registration desk informed about traffic from the Kansas City Airport was very helpful. Norm Dillman, who coordinated the effort, said that the experience was valuable to local hams as an emergency communications exercise.

Kindest regards,

A handwritten signature in cursive script that reads "Eddie Fowler".

Eddie Fowler, KCØAAZ  
Professor  
Tau Beta Pi
